

JONNEL DOSADO

LABORATORY TECHNICIAN

PROFILE

Experienced laboratory technician since Aug. 2013 up to present, capable on managing measurement of hazardous chemical substances banned by RoHS Directive in parts, materials and packaging materials. And has a short background on calibration of measuring instrument (Electrical Equipment, Dimensional Equipment, Temperature Equipment, and Mechanical Equipment).

TRAINING & SEMINAR

- GCMS Operation and Maintenance
- ISO 9001:2015 Quality Management System Orientation & Awareness Training
- Rank-2 Soldering Certification Training
- Rank-2 ESD (Electro Static Discharge) Seminar
- Orientation on Calibration and GR&R
- Work Attitude and Values Enhancement Seminar
- Orientation on Proper Chemical Handling
- EQAS (Environmental Quality Assurance System) level-1 and level-2
- Radiation Safety Training

WORK EXPERIENCE

- Make budget allocation plan for next fiscal year, contributing to the future improvements of laboratory.
- Management & Measurement of hazardous substances in parts, materials, sub-materials & packing materials.
- Determine and implement rules for response measures at the time of non-conforming parts or materials occur.
- Educate and conduct training about environmental quality assurance system
- Educate and conduct training on standard operation & maintenance of EDXRF, GCMS and also on chambers.
- Responsible for the daily standardization of element analyzer machine (EDXRF, DPT,& GCMS).
- Conduct periodic maintenance of reliability machines (Tumbler Test, Short Drop Test, Resin Load & Deformation Test & Different kinds of Chambers).
- Control operator & work schedule & daily overtime
- Make monthly environmental report
- Make Monthly kaizen/improvement on work process.
- Help establish, document, and maintain the environmental quality assurance system
- Help establish and implement a system to prompt transfer of information on environmental quality assurance (including regulatory information and customer requirements.
- Responsible for keeping & monitoring the standard samples of EDXRF & DPT and the standard solutions of GCMS.

EDUCATION

CITE Technical Institute

August 2018 – Present
Diploma in Engineering Technology

CITE Technical Institute

January 2012 – January 2015
Tertiary on Electro Mechanics Technology
